'My People' Presents:

Něstooāāk: Building Our Capacity

Something

Discovered...

Something Missing

October 17, 18, 2014
St Faith's Anglican
Church, 11725-93 Street
Edmonton, AB

"Něstooāāk" is the Mi'kmaq word
meaning "we are capable"

Increasing Our Community's Capacity

Who's Coming?

Non-Natives who want to understand the Native worldview better and want to connect with them in more meaningful ways.

Native followers of the Jesus way.

Native folk curious about the Jesus way.

Workshop Emphases

What can we learn from one another that will better empower us as leaders, deepen relationships, and equip us for future effective ministry together?

How can theology and Biblical teaching resonate with Native culture and traditions, while remaining faithful to Jesus?

How can we better understand traditional struggles of faith and life set within the traditions and learning styles of Aboriginal Peoples?

The Workshop:

Something Discovered.... Something Missing

The sessions will focus on issues dealing with our relationships together, Aboriginal and non-Aboriginal as we move forward into the future.

Three sessions:
Friday evening,
Saturday morning and
Saturday afternoon.

The workshop will include presentations, ceremony, music, small group conversations and/or question and response times.

Topics:

- * Things you always wanted to know about Aboriginal people but were afraid to ask.
- * Why can't they just get over it?
- * What in the world is the Doctrine of Discovery? Does it affect me?
- * Murdered and missing Aboriginal women: How bad is it?

Presenters/Animators Include:

Travis Enright, Cree
Terry LeBlanc, Mi'kmaq/Acadian
Michelle Nieviadomy, Cree
Sharon Pasula, Metis/Cree

What is the purpose of all this?

While our desire through this training is to strengthen people in a Biblical worldview, we understand that faith and community for Native people are not isolated.

We believe that now is the time to empower our people to fully and authentically walk out their faith in Jesus, sharing their journey with others regardless of their traditions or culture.

Our people need to be understood by the non-Native community, and to find good ways to walk together for the well-being of all.
